Muscle Recovery Technology Gets More Important In Sports & Exercise

By Steve Lamontia

Dr. Jason Wersland created the Thera Gun (patent pending) for professionals looking for superior muscle therapy to improve recovery and wellness.

It is a lightweight, easy to use, battery operated muscle management device, specifically designed for sports trainers, physical therapists, chiropractors and doctors as a more effective way to heal their patients. Additionally, athletes can use it on themselves.

Research has shown that muscle treatment leads to faster recovery from injuries and better overall performance. TheTheraGun G1 was invented to accelerate the muscular recovery process through rapid and rhythmic relief to all parts of the body.

The TheraGun's specific vibration stimulation provides a unique and more effective approach to muscle treatment.

Reggie Wilkerson Inducted Into The WS Hall Of Fame

Day Two Is A Repeat Of Day One - With More Fantastic Weather

35+ Teams Begin Play - And MSBL_National Twitter Issues It's First Alert!

By Tom Prendergast

When the MSBL / MABL World Series tournament began in 1988, we had 38 teams, two divisions (National and American) and two age groups, 30+ and 40+. However as the years went by and the tournament continued to grow we began adding new divisions and age groups. Overtime the National Office created the structure we have today, which allows for the most comprehensive and competitive divisions in all age groups. American - Federal - Mountain - Central - Cactus. 18+ to our 73+ division. And we've always had special playing rules to allow for the maximum number of players to get into a game, including batting a minimum of 10 (with no limit to the offensive line-up), the A/B batter, the shared batter position and of course, the courtesy runner. Unlimited defensive restrictions and a rule that allows the starting pitcher to re-enter the game gives all managers incredible flexibility and freedom to be both strategic / fair to all of the players on the team.
